Winona Forest Tourathon Cancelled *Set for this Saturday in Winona Forest*

Mannsville, NY February 17, 2016 – For the third time in its 36 year history, WFRA regrets to announce that the 2016 Winona Forest Tourathon has been *cancelled*. It will not be rescheduled.

In spite of our volunteers best efforts over the last several days to create a safe and enjoyable event course, the two(2) inches of rain that fell Tuesday was too much for the forest to handle. The frozen ground under the snow was unable to absorb any water, resulting in significant ponding in many areas. Additionally, there are a few places where creeks are overflowing their banks and running over the trails.

To those who look forward to this traditional fundraiser every year, it is a big disappointment. However, it is in the interest of safety of our participants and volunteers that we make this decision. We wish to thank all those who have supported WFRA and all the volunteers who tried their very best to bring this race to fruition.
