

# 2022

## Winona Forest Snowshoe Marathon

6 courses + 6 distances = One Great Marathon

**Prelude:** All marathon courses are marked very well. All intersections are signed. In all actuality, you do not need this course description to find your way. However, it is very easy to “zone out”. Focus at all times, and stay sharp. I’m excited to offer you this opportunity, get out there!

### **The Yellow Course**

3.1 Miles

This is an Out and Back Course

Roadside park- Alice’s Alley, head south following Start Sign and trail. This very nice wide, likely groomed trail is part of our popular event loop used by the ski and fat bike events.

Your first intersection will be Ted’s Turn. You will stay on Alice’s Alley, leaving wide groomed trail to either ungroomed, or single track groomed. Head down hill to a bridge and nice creek crossing. The trail gets very remote now, and will remain that way. An uphill and flat section, eventually arriving at a snowmobile trail crossing, Tucker. You will cross and join Larrabee (AKA Raspberry) Trail. Flat for a bit, watch for a veer to the left, taking you downhill, down some more, and to a creek and bridge in much need of repair (hopefully coming soon). This is your turn-around.
